COMPANY DESCRIPTION

Line and Grade is a civil engineering and land-use consulting firm. We are a small interdisciplinary team of dedicated, passionate, and creative professionals who love to explore the limits of what our profession can offer. Our fundamental goal is to invest our work in common ground, common spaces and in alignment with clients who see the landscape as a shared resource – no matter who owns it. Our work is primarily (but not exclusively) in Central Virginia. We specialize in assisting local agencies, institutions, and development partners with informed expertise to build projects that last, and which will be of tangible benefit to the communities they serve.

JOB DESCRIPTION

- Complete detailed CAD drawings based on sketches and concepts developed by engineering staff
- Ability to understand engineering intent and effectively complete technical tasks
- Produce comprehensive plans using AutoCAD/Civil3D and the ability to master our internal working protocols
- Perform site visits to make sketches of existing conditions which will then be translated into engineering documentation
- Works cooperatively with engineers and other team members
- Proactively checks assigned work tasks and actively seeks guidance from engineering colleagues

QUALIFICATIONS AND SKILLS

- Ideal candidates will have 2-5 years of relevant work experience
- Strong understanding of AutoCAD, Civil 3D and Sketchup
- Exhibit perseverance in professional work and a willingness to solve complex design challenges
- Ability to share examples of engineering work (designs, reports, calculations) from college and internships
- Strong interpersonal and communication skill

HOW TO APPLY

Please send an application and cover letter tailored to this position. Introduce yourself to us as a colleague. Give us some examples of how you've contributed to design challenges in the past. We value great communication, so please do take your time with the application, and allow it to represent you, both where you have been and where you are headed. And keep things brief and to-the-point. Email: info@line-grade.com

WHAT TO EXPECT

You can expect a mindful on-boarding process with structured ramp-up time. You can expect a team that listens. You can expect to be counted on and the freedom to do your best work. We are building a business that has unparalleled delivery for civil engineering designs and ideas. We are looking for people who want to contribute to this vision and desire to build a career within our team.

BENEFITS

- 100% employer paid health insurance
- Retirement savings with matching
- PTO + 8 paid holidays
- Profit Sharing Bonus Program
- Healthy and Balanced Work Environment
- Leadership Opportunities
- Inclusive business decision making
- Compensation commensurate with experience
